

Workiva for the Agency Financial Report (AFR)

The leading cloud platform for connected data, reporting, and compliance solutions

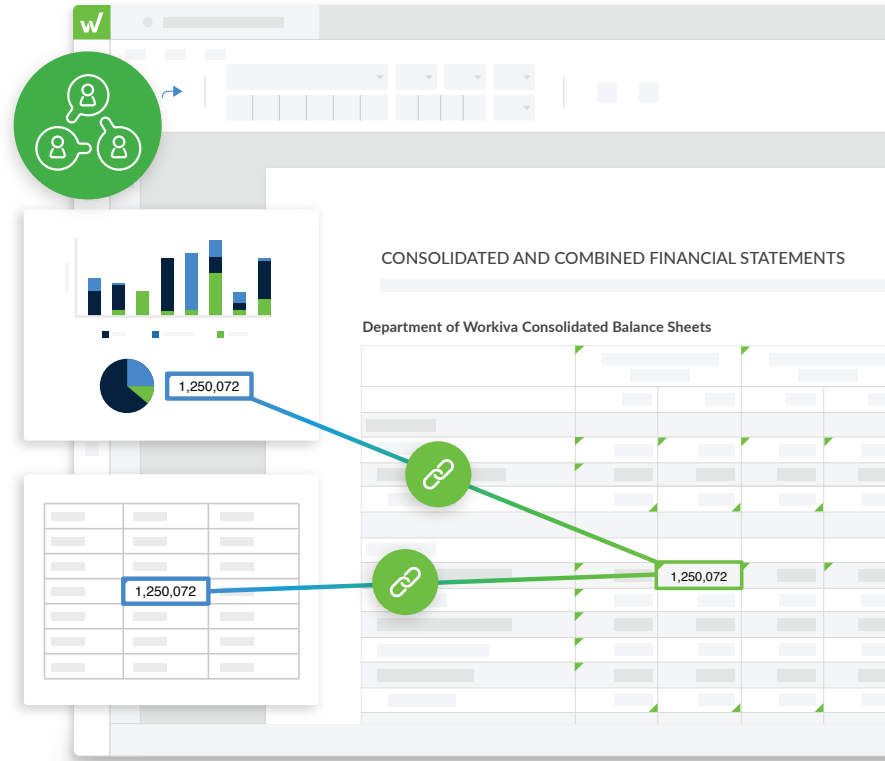

The powerful Workiva connected reporting platform helps federal agencies eliminate the manual effort and risk of error in the AFR process.

Consolidate and prepare data, and combine numbers, narrative, tables, and charts to produce reports based on consistent, connected data you can trust.

Automate the collection of data, create dynamic filters, and develop reporting templates in a centralized platform.

Delivered in a flexible, scalable, and cloud environment, Workiva solutions provide visibility and confidence into your AFR process.

The Workiva team's fast, proven implementation success provides results that are measured in months, not years.

Workiva, a GSA-approved vendor, is FedRAMP authorized at the moderate security impact level.

Collaborate with control

Work simultaneously in one document. Limit access to individual cells, slides, and paragraphs based on user roles. See who made what change and when with a full audit trail. Inline commenting makes it easy to quickly track feedback from multiple reviewers.

Adapt quickly

Workiva solutions are designed to fit within existing processes to help teams nimbly adapt to changing conditions. Create a sustainable risk management framework with less reliance on IT.

Limit tedious, manual effort

Make last-minute edits to numbers and text, and see those changes flow throughout your documents within seconds. Roll forward painlessly from one time period to the next by connecting existing data to your new documents.

Reduce risk with data assurance at scale

Automated data collection and aggregation from source systems ensures that everyone is working from a single source of truth. Easily combine offline data with master datasets. Spend time analyzing rather than requesting, collecting, and checking numbers.

About Workiva

Workiva, the leading cloud provider of connected data, reporting, and compliance solutions, is used by thousands of enterprises across 180 countries, including more than 75 percent of Fortune 500® companies, and by government agencies. Our customers have linked over five billion data elements to trust their data, reduce risk, and save time. For more information about Workiva (NYSE:WK), please visit workiva.com.

Workiva solution-based licensing supports an unlimited number of users, so they can connect data for a variety of federal government financial reporting, analysis, and risk management projects, including:

Data consistency

Connect data and text from a single source of truth to multiple documents for easy updating, eliminating issues with version control.

Dashboards and reporting

Access real-time dashboards for visibility into processes.

Permissions and security

Permission settings limit who can view or edit specific pages, slides, or spreadsheet cells.

Workflow and tasking

Automated workflows and tasking keep the process on track.

Always accessible

Collaborators can log on to the platform at any hour, from any secure device.

History and audit trail

An automatic audit trail captures every revision.

Multiple solutions, one platform

Use multiple Workiva solutions to manage various reporting requirements with a single platform, such as Annual Performance Reports, Congressional Budget Justifications, OMB A-123, Audit Liaison Management, and more.

Workiva is committed to exceeding industry standards to protect your data and is FedRAMP authorized at the moderate security impact level.

Workiva offers GSA pricing through our government software distributor, Vertosoft. The GSA contract can be found on gsaadvantage.gov.
