**Section A - pricing option**

**GOODS TEMPLATE PRICING**

**Primary Method for Section "A"** - In section "A", Vendors may insert line items, if they choose to, "EQUIPMENT/GOODS" and provide the requested information for each line item. YOU MAY ADD ADDITIONAL LINES AS REQUIRED. See Example 1 below.

**Alternate method for Section "A"** - In Section "A", vendor may choose *not* to list line items because of the number of items available are too numerous. As an alternative, the vendor may list brands or manufacturers of goods with a minimum discount off that line of goods. You should provide a link or document reflecting the catalog pricing for each line of goods OR indicate that you will provide catalog pricing upon request. See Examples 2 and 3 below.

3. Links or other uploaded Catalog Pricing is not available but will be provided upon request. >>>			

**Section C - Pricing Option - Cost plus markup method**

**CAUTION: Selecting the Markup method of pricing as the ONLY METHOD PROPOSED may limit the availability of the contract because some jurisdictions prohibit cost plus pricing contracts.** NOTE: If you do not have list prices or a catalog as defined in the RFP document you may propose pricing as a markup from your cost from your provider. Vendor must document the cost to the member to prove compliant pricing. PERCENTAGE MAXIMUM MARKUP of items, goods, equipment (not services) not listed in this RFP, but provided for sale by vendor. Markup is from actual hard cost seller has paid for the good. Percentage markup (end cost to member) may be decreased due to volume or other factors but may not be increased. Percentage markup may be any percentage vendor deems appropriate but it will be considered as part of the evaluation AND MUST APPLY TO ANY POTENTIAL PURCHASE BY A TIPS MEMBER.
