Unlock Innovation

BrainGu's platforms deliver automated solutions that are (rs)^2: resilient, scalable, reliable, and secure. Our solutions foster an environment where developers can thrive, and deliver high-quality software with efficiency, confidence, and peace of mind. We drive results in weeks, not years.

What Makes Us Different?

Other platforms focus on delivering solutions that impact individual stages of the Software Development Life Cycle (SDLC). BrainGu's DevSecOps Platform Suite, Structsure™, is a solution that delivers exceptional developer experience, and has security baked in at every stage of the SDLC.

structsure

Structsure is more than a platform; it's a catalyst for innovation. Built on Kubernetes, Crossplane, and Big Bang, it empowers software development teams to deliver business-critical applications securely, with agility to scale and adapt to challenges.

Developer Collaboration Environment   Pillars of Creation   Deployment Target

structsure

Empower your Software Development Journey

Rapid Delivery

Deliver business-critical applications with unprecedented speed.

Efficiency Redefined

Say goodbye to bottlenecks and hello to seamless workflows.

Security by Design

Your data's safety is at the heart of Structsure.

smoothglue

Data-Mesh Platform

Smoothglue actively enhances data accessibility and availability for business users. It connects data owners, data producers, and data consumers directly to improve business outcomes in data-centric solutions and drives the adoption of modern data architectures. Smoothglue empowers businesses to take control of their data ecosystems and unleash the full potential of their data resources.
