Introducing the Cornerstone Talent Experience Platform
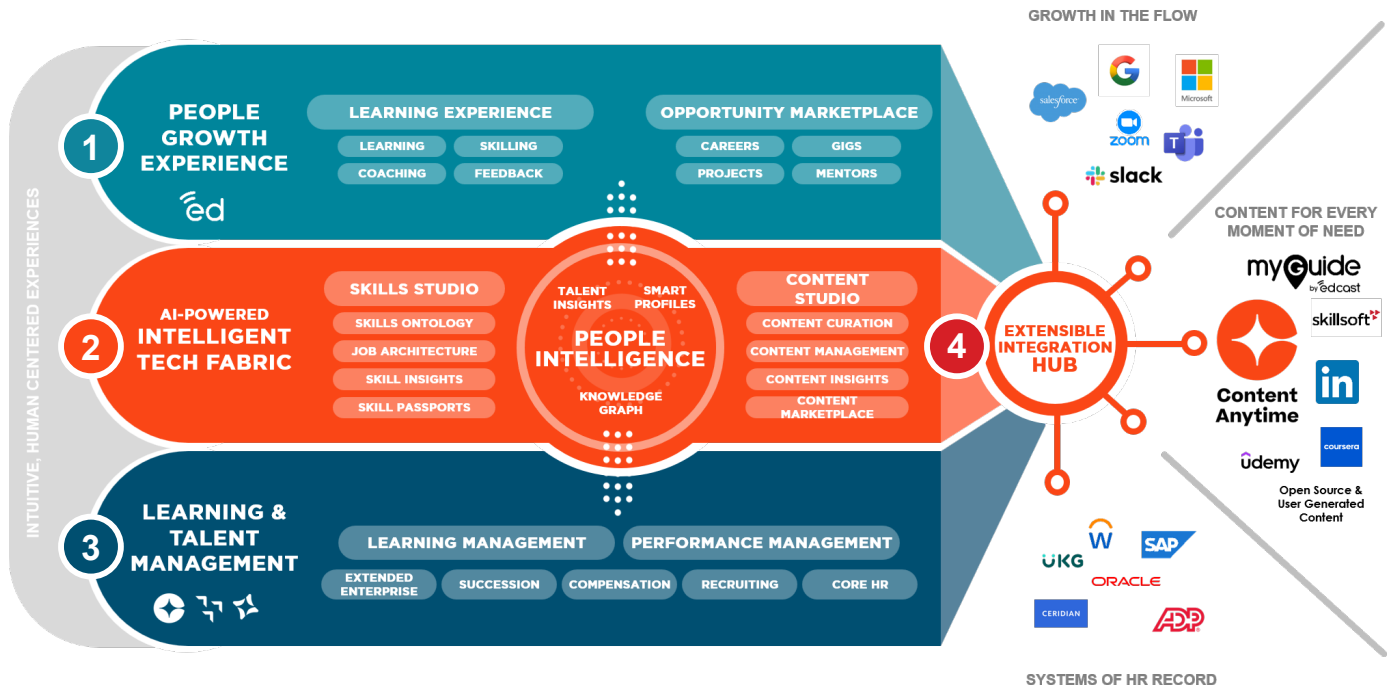

Unlock the limitless potential of your workforce and streamline how you do it

Learning and talent leaders face historic challenges

A changing world demands new levels of business agility and workforce resilience. Learning and talent leaders are now at the center of business transformation—and they will define the way we work in the 21st century.

As the industry leader in learning and talent, Cornerstone understands what's needed to build a successful workforce today. The Cornerstone Talent Experience Platform (TXP) brings together our portfolio of solutions to help you drive transformational outcomes for your people and your business by combining:

- Best-in-class learning and talent management tools

- A seamless people growth experience (LXP) across learning, skill building, and career mobility

- AI-powered data visibility and skills insights to inform strategic talent decisions

- An extensible integration architecture to connect and evolve with your HR tech ecosystem

GROWTH IN THE FLOW

CONTENT FOR EVERY MOMENT OF NEED

SYSTEMS OF HR RECORD

1. People Growth Experience

- **Ensure you're skilled for any future** with the world's leading skills-based learning experience platform, EdCast.

- **Harmonize your learning content in the flow of work,** from formal internal sources like LMS to informal external content—expertly curated to drive engagement across systems and devices.

- **Find candidates for new roles faster** by connecting learning, performance, and skills to career exploration and internal mobility with our opportunity marketplace.

3. Best-in-class Learning and Talent Management

- **Do more, more easily** with a unified platform that helps employees and managers navigate continuous performance and learning in the moment, to inspire growth and success for all.

- **Streamline tasks** from business rules to compliance management—and provide insights around their effectiveness.

- **Work more efficiently** so you can spend less time on administration—and focus more on employee engagement and business outcomes.

2. Intelligent Tech Fabric

- **Unify fragmented data and gain comprehensive visibility** into people, skills, and content data to inform strategic decisions and connect your talent ecosystem.

- **Simplify with powerful AI** to automate, predict, and manage your organization's talent and skills.

- **Discover, curate, and create** the content your people are looking for to build their skills and careers.

4. Extensible Integration Hub

- **Accelerate innovation and stay agile** with a future-proof, open architecture that can evolve with your business.

- **Deliver enhancements faster** with easier ways to integrate our evolving system of partners, from productivity tools that deliver growth in the flow of work to content providers like our award-winning Content Anytime library.

"[Cornerstone's] capability to manage learning at scale as well as learning experience and extended learning, fueled by skills and content, makes them a powerful player and a leader globally."

—David Wilson, CEO, Fosway Group
