

The Huntress Security Platform

For State and Local Government

Safeguard essential services and protect sensitive government data.

The Huntress Security Platform delivers fully-managed security solutions to protect and secure your endpoints, identities, systems, and data. This helps you keep essential public services running and gives you the peace of mind you deserve.

Every Huntress solution is backed and operated by our 24/7, AI-assisted Security Operations Center (SOC) and powered by a team of world-renowned threat researchers, hunters, and analysts.

We're dedicated to stopping cyber threats before they can do damage, so you stay protected around the clock.

Managed EDR

Endpoint protection built for every agency.

Huntress Managed EDR continuously protects your endpoints with an 8-minute MTTR to find and stop attacks fast for agencies of all sizes.

Managed ITDR

Modern attackers don't need malware – just a login.

Identity is the new endpoint, and attackers know it. Huntress ITDR detects and stops identity-based threats in Microsoft 365 with a 3-minute response time and low false positives, all with support for GCC High environments.

Managed SIEM

Threats evolve. Your SIEM should too.

With Smart Filtering technology, we collect only what matters – reducing noise, retaining critical signals, and accelerating response. Our SIEM simplifies compliance, minimizes overhead, and delivers protection at a predictable price. It also helps agencies address many of the logging and audit controls expected in CJIS-aligned environments, while still fitting tight budgets.

Managed Security Awareness Training (SAT)

Expert-backed training for safer teams.

Training content and simulations learners actually enjoy, managed for you to make administration easy. Unlike the rest, it's powered by current threat intelligence so you have fewer security incidents.

The Huntress Difference

Built for you, fully managed by us

While other solutions expect you to do all the work, our fully managed products do the heavy lifting for you. Our 24/7 threat hunters monitor your environment and catch threats before they disrupt public safety, courts, or citizen services. We don't just alert you to threats; we wreck them and kick them out fast, giving you peace of mind. We're here when you need us, with a 98.8% customer satisfaction score.

World-renowned experts on your side

You shouldn't have to build a team of skilled security pros to protect your county, city, or district office—that's our job. Huntress' products are backed by the best security minds in the industry. Whether it's threat research, detection and response, or support, our experts have seen it all and stopped it all.

Speed, affordability, and simplicity without compromising quality

Huntress prioritizes ease of deployment, affordability, and simple pricing, delivering the tools you need to keep your business protected, without compromising on quality. We focus on providing real value, not inflating prices with unnecessary add-ons or service tiers. You get fast time-to-value with next-level outcomes and results.
