WHAT JET DOES

Built for how you actually work

- Full project lifecycle — pre-dev, pre-construction, execution, and closeout in one platform
- Jenny AI — an AI co-pilot for RFIs, submittals, reporting, and project insights
- Hands-on onboarding, training, and dedicated support on every account
- Unlimited users — your entire team, your subs, your consultants. No per-seat fees.
- Open REST API with integrations for Sage, DocuSign, QuickBooks, and more

KEY METRICS

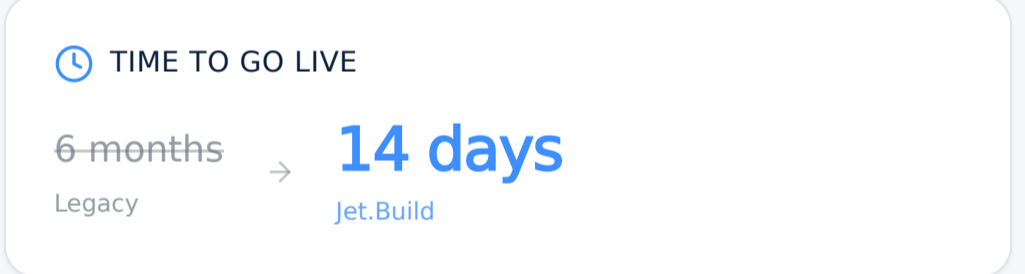

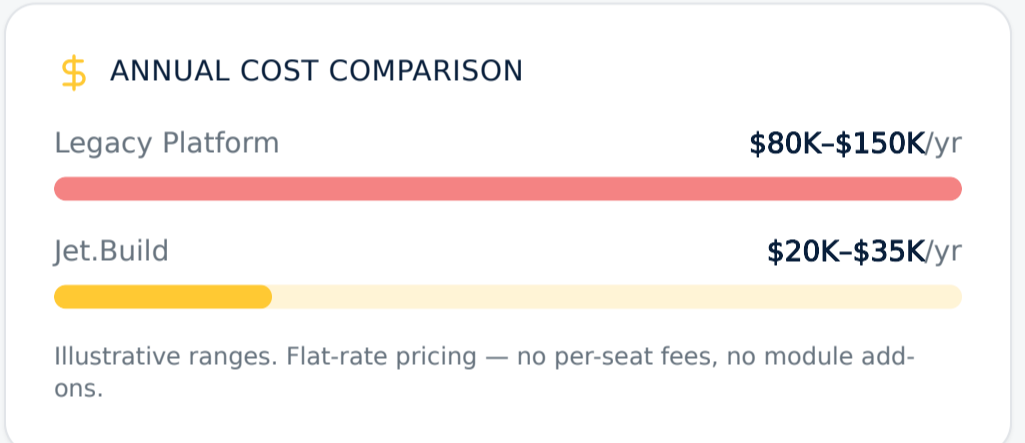

Proven at scale

- \$47B** Active Construction
- 153M** SF Managed
- 26K** Active Users
- Live** Jenny AI — Live

WHY BUILDERS ARE SWITCHING

The risk of staying as-is grows every year

- Legacy platforms cost 4-5x more — and you're still paying for modules you never use
- Modern teams expect modern tools — intuitive interfaces, mobile access, and AI-powered workflows
- Implementation shouldn't take 6 months. Jet.Build is live in 14 days with full data migration.

TRUSTED BY

Microsoft	JetBlue	Delta	United	NewSouth Construction	Department of War

Jet.Build kept everyone aligned, ensured transparency with stakeholders, and saved us time and money.

— RUBIN EQUITIES

SWITCHING MADE SIMPLE

We handle the hard part

- Zero workflow disruption**
Low-risk, structured onboarding that keeps projects running.
- Rapid team adoption**
Most teams are fully productive within the first week.
- Complete data migration**
We migrate your data from any platform — Procore, spreadsheets, shared drives — as part of onboarding.
