

Boost virtual training efficiency & engagement

Facilitate active learning and save hours of prep time by integrating Class with Cornerstone OnDemand.

Improve instructor efficiency and reduce prep time

Build persistent course templates with relevant learning content—including content from Cornerstone—to reduce hours of prep time

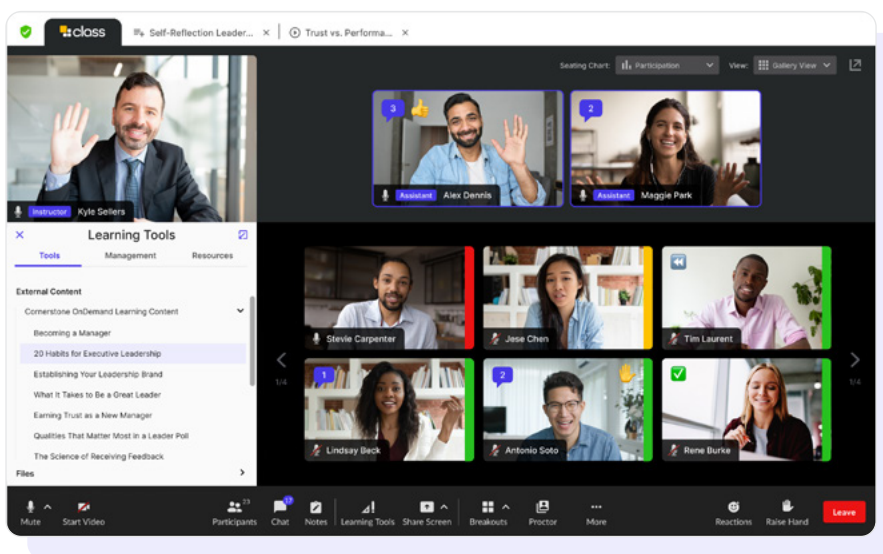

Measure and improve learner engagement

Track learner engagement during live training sessions and use actionable data to enhance future instruction and drive better outcomes

Streamline and simplify live virtual learning workflows

Improve workflows by accessing Class directly from within the Cornerstone event calendar—ensuring a seamless learner experience

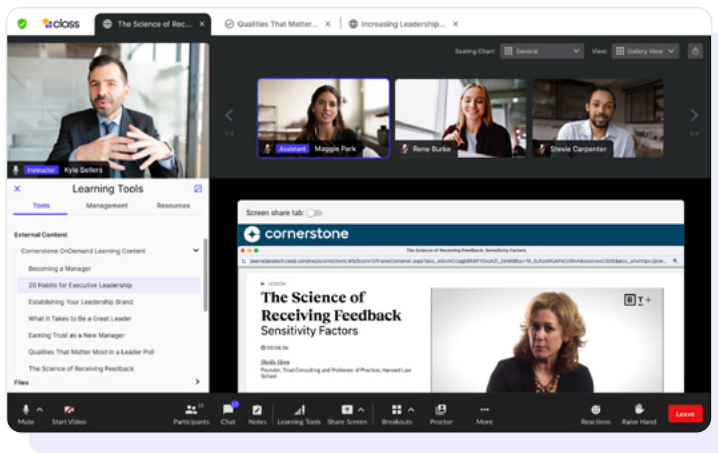

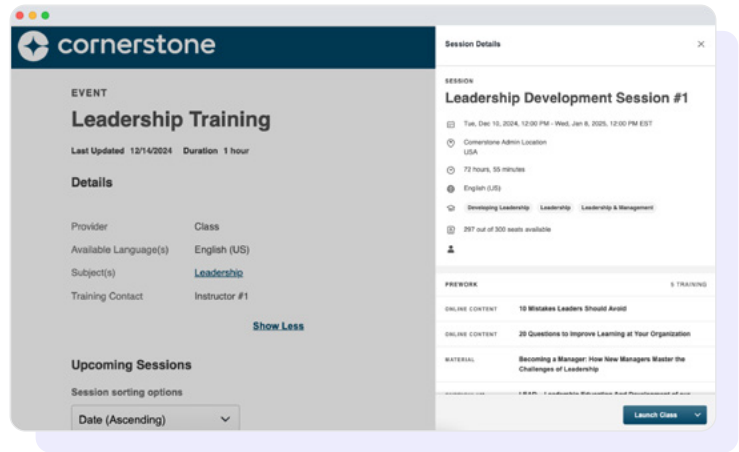

Class integrating with Cornerstone is a major win for us. The integration saves an incredible amount of time and effort, and translates into hours and hours of productivity gains.”

Scott Behe

Senior Manager of Operations,
Volvo Trucks North America

Simplify instructor and administrator workflows

- Automate enrollment, attendance tracking, and training record management
- Maintain training efficiency with seamless integration into Cornerstone's LMS
- Optimize virtual training with intuitive and automated workflows

Engage learners with live interactive training

- Foster collaboration with breakout rooms, live discussions, and interactive activities
- Track learner progress with real-time assessments and analytics synced to Cornerstone
- Provide an intuitive and engaging learning experience with seamless content delivery

Measure learner progress and outcomes

- Gain actionable insights into learner engagement and knowledge retention
- Monitor training effectiveness with in-depth analytics and reporting tools
- Use data-driven insights to continuously refine virtual training programs
